Enumeration Dist: No.

NOTE A.—The light dotted perpendicular lines, which divide the spaces intended for numbers on this Schedule, are intended to separate the units, tens, &c., from each other, and the Enumerator should be careful that the figures are written within the small spaces so formed, thus:

7	4	the units
4	2	

 in the right-hand small spaces.

NOTE B.—Make an affirmative entry by a slanting line (thus /) in one of the three columns 2, 3, and 4, according as the fact is in the case of each farm—in column 2, if the occupier is the owner of the farm; in column 3, if he is the tenant at a fixed money rental; in column 4, if he conducts it for a share of the product.

NOTE C.—Enumerators will observe that there are 100 questions relating to each farm, which are arranged in four successive divisions of each schedule page.

SCHEDULE 2.—Productions of Agriculture in Ches in the County of Alleghen, State of Mich

DEAF-MUTES.

Great assistance may be derived from questions addressed to deaf-mutes themselves: Do you know any deaf-mutes in this neighborhood? The class feeling of the deaf and dumb, arising from their isolated state, is so great that they seek each other out for the sake of companionship, and ordinarily know every deaf-mute for miles around.

[illegible]

NOTE B.—If self-supporting, say "yes;" if partly self-supporting, say "partly;" if not, say "no." Indicate all inmates of institutions who are maintained or treated at their personal expense (not at the expense of any town, county, or State, nor of the institution) by the word "Pay."

NOTE D.—The word "semi-mute" has a technical meaning, and denotes a deaf-mute who lost his or her hearing after having acquired at least a partial knowledge of language.

NOTE E.—In making entries in columns 14, 15, and 16, an affirmative mark only will be used, thus: /

BLIND.

The object of this Supplemental Schedule is to furnish material not only for a complete enumeration of the blind, but for an account of their condition. It is important that every inquiry respecting each case be answered as fully as possible. Enumerators will, therefore, *after making the proper entries upon the Population Schedule (No. 1)*, transfer the name (with Schedule page and number) of every blind person found, from Schedule No. 1 to this Special Schedule, and proceed to *ask the additional questions* indicated in the headings of the several columns.

In this enumeration will be included not only the totally blind, but also the semi-blind. No person will be carried on this Schedule, however, who can see sufficiently well to read. For the distinction between the totally blind and the semi-blind see Note E; it is of the greatest importance to note this distinction with care, by making the proper entry in columns 10 or 11.

REN.

C.

The object of this Supplemental Schedule is to furnish serial not only for a complete enumeration of children in institutions, but for an account of their condition. It is important that every inquiry respecting each case be answered as fully as possible. Enumerators will, therefore, after making the proper entries upon the *Population Schedule* (No. 1), transfer the name (with Schedule page and number) of every child found in any institution designed for the care of poor or homeless children, or in any poor-house or other asylum for the destitute, from Schedule No. 1 to this Special Schedule, and proceed to ask the *additional questions* indicated in the headings of the several columns. Special attention is called to the questions respecting the child's antecedents, which are designed to bring out the proportion of children in institutions who belong to the respectable and to the vicious classes severally.

[illegible]

NOTE A.—Children in institutions may not be residents of the county or State in which the institution is situated, and in that case their residence when at home should be stated, in order that they may be accredited to the State or county to which they properly belong, and that the county in which the institution is situated may not be charged with more than its due proportion of dependent children.

NOTE B.—In making entries in columns 18, 19, and 20, an affirmative mark only will be used, thus: /

INHABITANTS IN PRISON

The object of this Supplemental Schedule is to furnish material not only for a complete enumeration of prisoners, but for an account of their condition. It is important that every inquiry respecting each case be answered as fully as possible. Enumerators will, therefore, *after making the proper entries upon the Population Schedule (No. 1)*, transfer the name (with schedule page and number) to this Special Schedule, and proceed to ask the additional questions indicated in the headings of the several columns.

In addition to the enumeration of prisoners required in this Special Schedule, enumerators will also, in all cases (even though there should not be any prisoners in confinement upon the first of June), ask the warden or keeper of every prison, station-house, or lock-up in their respective districts the questions found below, at the bottom of the page, respecting the number of prisoners in confinement *during the year ending May 31, 1880*, and record the answers.

NOTE A.—An insane person may be found either at his own home or away from it in some institution, such as a hospital, asylum, or poor-house. In the latter case, his residence when at home must be stated, in order that he may be accredited to the State or county to which he properly belongs, and that the county in which the institution is situated may not be charged with more than its due proportion of insane.

NOTE B.—It is not necessary to make minute subdivisions, but to ascertain the number suffering from certain marked forms of insanity—mania, melancholia, paresis (general paralysis), dementia, epilepsy or dipsomania.

NOTE C.—An insane person may have more than one attack of insanity: he may recover and afterward become again insane. It is important to know at what age the first attack occurred; how many distinct attacks the patient has had; and the duration of the present attack.

NOTE D.—The object of the inquiries in columns 11 and 12 is to ascertain approximately the proportion of the insane who cannot be trusted with their personal freedom. In column 11, if the patient is usually or often locked in a crib or other room or apartment in the day-time, say "yes"; if not, say "no"; but if locked at night and not by day, say "night." In column 12, if usually or often mechanically restrained, state the mode of restraint, thus: strait-jacket, camisole, muf, strap, hand-cuffs, ball and chain, cribbed, &c. If, instead of mechanical restraint, the patient has a constant personal attendant, say "attendant."

NOTE E.—In columns 13 and 14 state all the hospitals or asylums for the insane (not jails or poor-houses) in which the patient has been for a longer or shorter time an inmate, and in column 14 state the *entire number* of months or years spent in such institutions (whether in one institution or more).

NOTE F.—In the rubric stating, in columns 13 and 14, an affix *months*, *years*, &c., will be readily supplied.

The object of this Supplemental Schedule is to furnish material not only for a complete enumeration of the idiots, but for an account of their condition. It is important that every inquiry respecting each case be answered as fully as possible. Enumerators will, therefore, *after making the proper entries upon the Population Schedule (No. 1)*, transfer the name (with Schedule page and number) of every idiot found, on Schedule No. 1 to this Special Schedule, and proceed to ask the *additional questions* indicated in the headings of the several columns.

The word "idiot" has a special meaning which it is essential for every enumerator to know. An idiot is a person the development of whose mental faculties was arrested in *infancy or childhood before coming to maturity*. It is sometimes difficult to distinguish between idiocy and that which is due to the loss or deterioration of mental power in consequence of insanity. The latter is not true idiocy, but dementia or imbecility. The enumeration desired for the Census is of *true idiots only*. Demented persons should be classed with the insane.

Enumerators may obtain valuable hints as to the number of idiots, and their residences, from physicians who practice medicine in their respective districts.

Number taken from Schedule No. 1.		Residence when at home. (See Note A.)					Training School. (See Note E.)										
NAME.		City or Town.	County (if in same State), or State (if in some other State).	Is this person self-supporting, or partly so? (See Note B.)	Age at which idiocy occurred. (See Note C.)	Supposed cause of idiocy (if acquired). (See Note D.)	Size of head. (Large, small, or natural.)	Has this person ever been an inmate of a training school for idiots? If yes, name the said training school.	What has been the total length of time spent by him or her during confinement in the said school or training schools.	Date of discharge. (Year only.)	Is this person also insane? /	Is he or she also blind? /	Is he or she also deaf? /	Is he or she also epileptic? /	Height /	Weight /	Handedness, or other peculiarity, on which side? /
